

A CONTENT LOADER FROM THE SUMMIT™ LINE

The Telefonix PDT™ CabinEdge™ stand-alone content loader supports network delivery of In-Flight Entertainment (IFE) content and is meant to be permanently installed on cabin monuments or in other convenient locations within the aircraft's cabin. The CabinEdge solution is designed to make the loading and management of IFE content simple, straightforward and inexpensive.

The CabinEdge content loader utilizes small form factor, low-cost, commercially available USB "thumb drives" as the content transfer medium. The unit loads digitally stored, encrypted content in the background in an unattended fashion. A keyed tumbler lock provides security and ensures that loaded content remains secure until the next update.

Simply installing the small form factor USB drives and closing the interface door automatically sends the signal to the onboard software to "mount" the drives and begin the process of loading content to the front end server. The onboard software automatically cross-checks with the locally stored content and updates files as required at better than USB 2.0 speeds.

The CabinEdge content loader is Telefonix PDT's latest addition to the Summit Line of In-flight Entertainment and Connectivity (IFEC) hardware. As with all solutions within the growing product line, the CabinEdge unit is designed using industry leading technology and is suitable for use with existing IFEC systems or for installation of a new system utilizing other components from the Summit line.

PRODUCT FEATURES

Processor	NXP i.MX6, 1 GHz Quad Core, ARM Cortex A9
Front Panel I/O (Behind Door)	Content Loading: 4x USB (Small Form Factor) Serial Console: Micro-USB
Rear Panel I/O	LAN: RJ-45 Gigabit Ethernet 28 VDC Power: 4-pin Header
Content Security	Keyed Cam Lock for Front Access Door
Indicators	2 LEDs for LAN Activity and Power
Input Power	28 VDC or PoE per 802.3af (< 10W)
Operating System	Linux
Embedded BIOS	U-Boot Boot Loader
Mechanical	Wall Mounting Bracket with No Exposed Wires or Connectors
Operating Temperature	-15° C to +55° C

L x W x H: 6.00" x 5.72" x 1.32"
Weight: <2 lbs (<0.9 Kg)

THE SUMMIT LINE

The Telefonix PDT Summit line of aircraft Inflight Entertainment and Connectivity (IFEC) equipment is comprised of state-of-the-art system components that offer you the premier solution set available on the market today. Summit hardware elements can easily be added to enhance your current system or can be combined to create a unique solution to meet your IFEC needs.
